### Summary

---

Highly motivated Computer Science fresh graduate specializing in backend development with Java and the Spring Boot ecosystem. Experienced in architecting secure RESTful APIs, optimizing database operations, and applying design patterns. Seeking a remote software engineering internship to leverage problem-solving skills and contribute to scalable digital solutions.

### TECHNICAL SKILLS & LANGUAGES

---

- Tech Stack: Java, Python, C#, Spring Boot, Spring Security, SQL
- Core Engineering: OOP, SOLID Principles, Design Patterns, Data Structures, Algorithms
- Developer Tools: Git, GitHub, Clean Code, Testing & Debugging, Collaboration
- Languages: Arabic (Native) | English (Intermediate)

### PROJECTS

---

#### Chess Game (Graduation Project) *Tech Stack: Java, Spring Boot, PostgreSQL, Spring Security, JWT*

- Developed a full-stack chess game using Spring Boot (Java) and React (JavaScript) with real-time multiplayer via WebSockets and Stockfish AI integration
- Implemented secure JWT authentication and enforced complete chess rules and game logic

#### YouTube-Style Notification System (Observer Pattern), *Java*

- Designed a real-time event notification engine utilizing the Observer Pattern to scale user subscriptions.
- Optimized event distribution using concurrent structures to handle updates and prevent duplicate notifications.

#### Social Media Platform Backend API | Tech Stack: Spring Boot, PostgreSQL, JDBC

- Developed a RESTful API backend supporting user management, connections, and interactive posts.
- Designed a normalized PostgreSQL database schema with Spring Data JDBC utilizing MVC architecture.

### EDUCATION

---

#### Bachelor of Computer Science | Yarmouk University (2021 - 2025)

### TRAINING

---

#### Software Engineering Training (2024)

- Developed scalable backend features incrementally and mastered troubleshooting through practical debugging.
- Enhanced proactive and independent problem-solving skills inside production environments.

### ACHIEVEMENTS & CONTESTS

---

- **ACPC Local Contest - Yarmouk University (2023):** Awarded **2nd Place** among all competing teams.
- **ACPC National Contest - Jordan (2023):** Represented Yarmouk University **Ranked 30th nationwide**.
